

Veterinary nurse visits

Not every concern needs a trip to the vet. **Liane Westwood**, our registered veterinary nurse, visits the retreat weekly and can advise on skin conditions, itching, eyes, ears, teeth cleaning, claw clipping, and general wellbeing.

Our canine nutrition consultant will work through your dog's age, breed, activity level, and any health conditions or allergies, then help you put together a plan, whether that's choosing the right food, transitioning to a raw diet, working out the right supplements, or figuring out how much and how often they should be eating.

Veterinary nurses can't diagnose or prescribe, and this service isn't a substitute for your own vet.
